Professional Summary

Data Analyst with 3 years experience in translating business requirements into actionable insights, developing data-driven dashboards, and streamlining reporting processes. Skilled in Power BI, SQL, and data warehousing with experience in stakeholder management, process improvement, and KPI tracking. Adept at bridging the gap between business needs and technical solutions to drive informed decision-making.

Skills & Technical Competencies

Business Tools

- Power BI
- Retool
- Excel (Advanced Models & DAX)
- Tableau

Databases

- MS SQL Server
- MySQL
- PostgreSQL
- Snowflake

Documentation & Analysis

- BRD, FRD, User Stories & Process Flows
- KPI Tracking & Process Improvement
- Stakeholder Engagement

ETL & Automation

- n8n Workflow Automation
- Data Warehousing & ETL Pipelines
- Data Cleansing & Validation

Languages & Frameworks

- SQL (Advanced Queries, Views)
- Python (Pandas, NumPy)
- Django

Professional Experience

Python Consultant / Data Expert

Ducat Jaipur | Jaipur, India | Aug 2026 - Present

- Working as Data Expert to train working and non-working professionals in Python, data analysis pipelines, and modern data stack tools.

Data Analyst

LNP Infotech | Mohali | Dec 2025 - May 2026

- Analyzed and processed financial and operational data for a U.S.-based client in the credit card and home loan domain, ensuring accurate and timely reporting.
- Built and maintained automated workflows using n8n to streamline data processing, document verification, and internal operations.
- Performed document verification, audits, and compliance checks in alignment with U.S. credit card and home loan regulations.
- Designed and managed relational databases using PostgreSQL, optimizing queries for efficient data retrieval and analysis.
- Developed interactive dashboards and internal tools using Retool to support multiple departments with real-time insights and operational visibility.
- Conducted data validation and quality checks to maintain high data integrity across systems and reports.

Coding Instructor / Data Analyst

Netmax Technologies | Chandigarh | Dec 2024 - Nov 2025

- Analyzed and processed large datasets using SQL, Python, and Excel to generate actionable business insights.
- Designed and developed interactive Power BI dashboards to track and visualize key metrics, performance trends, and customer insights.
- Built automated data pipelines in Python and SQL to optimize data extraction, transformation, and loading (ETL) processes.
- Utilized Tableau to create data visualizations and dashboards for internal stakeholders, enabling data-driven decision-making.
- Created and maintained advanced Excel models for trend analysis, financial forecasting, and reporting purposes.
- Provided training and mentorship on data tools such as Power BI, SQL, and Excel.

Software Developer

JKM Amusements | Gwalior | Jul 2023 - Dec 2024

- Collaborated with stakeholders to define reporting requirements, ensuring alignment with business objectives.
- Designed and developed interactive dashboards in Power BI for sales performance, inventory tracking, and customer insights.
- Conducted data analysis on operational and sales data to identify trends, anomalies, and process improvement opportunities.
- Developed and maintained internal web applications and dashboards using Django, Python, and SQL to track inventory, sales, and client engagement.
- Designed and implemented RESTful APIs to integrate backend services with frontend applications.

Education

Bachelor of Technology in Electronics and Communication | Rustamji Institute of Technology | 2023

Foundation in quantitative engineering, problem solving, algorithms, and computational tools.

Certifications

Power BI Masterclass | Udemy (2024)

Django for Web Development | Coursera (2023)

Python Specialization | Coursera (2022)
